

June 23, 2025

YGION Biomedical is a Vienna-based innovative and dynamic biomedical company dedicated to pioneering targeted, fully individualized immunotherapies to defeat cancer and improve patient's lives. As a small, mission-driven team, we thrive on collaboration, cutting-edge science and bold thinking.

We are now looking for enthusiastic, creative and highly motivated candidates who are passionate about our mission to join our team as a

### **Scientist (m/f/d) – Preclinical R&D**

full-time position

We are seeking a hands-on PhD-level Scientist with strong expertise in (immuno-)oncology, immunology or a related field. This role is ideal for a motivated, detail-oriented individual who enjoys being deeply involved in lab work and thrives in a fast-paced, collaborative startup environment. You will play a critical role in designing and executing experiments, generating data to support our therapeutic pipeline, and advancing our understanding of tumor-immune interactions.

Your key **tasks** and **responsibilities**:

- Design and perform immunological assays to evaluate and characterize therapeutic candidates
- Lead and contribute to experimental strategies, assay development, and data interpretation
- Collaborate closely with other scientists to advance project goals
- Maintain accurate and detailed lab records and communicate findings to the team
- Stay current on relevant scientific literature and incorporate new ideas into experimental design

Your **profile**:

- PhD in a relevant field (e.g., immunology, molecular biology, biotechnology or similar)
- Strong experience in cellular immunology techniques
- Demonstrated creativity and problem-solving skills in experimental design
- Excellent communication and collaboration abilities
- Open-minded, creative, and hands-on mentality
- Ability to work in a fast-paced start-up environment
- Proactive, self-organized work style
- Prior experience in a biotech or startup setting is a plus,

The successful applicant will be part of a dedicated team involved in exciting projects in the area of cancer immunotherapy. We offer a high degree of flexibility and foster a proactive working style with contribution of your own ideas.

If you are interested in working with us, please send your CV, a brief cover letter, and a summary of your relevant research experience to [careers@ygion.bio](mailto:careers@ygion.bio) no later than 30.07.2025.

We're excited to learn how you can help shape the future of immuno-oncology with us.

Disclaimer according to Austrian Law: the minimal gross salary according to the collective agreement for this position is EUR 3.063,55 per month for a full-time position (40 hours per week). Remuneration will be according to experience and performance.

YGION Biomedical GmbH, Campus Vienna Biocenter 5, 1030 Vienna.
